To the Honorable Edward J. Davila of the U.S. District Court for the Northern District of California:

I have had my google account hacked a couple of times. My password has been changed by someone else other than myself. Therefore, my personal space has been infringed upon and I have been violated. I have been having lots of computer problems due to this hacking issue, to the point that even I or Apple sometimes can't fix some of my issues. My password issue seems to be getting worse. I'm continuously having to change my password because I can't get into my account, since someone keeps changing my password.

Therefore, I want to remain as part of this settlement.

Regards,
